Analytical Constituents:

Protein	11.0%
Fat content	5.0%
Crude fibre	2.5%
Crude ash	4.5%
Estimated ME (as fed)	333kcal/100g

Additives:

Natural antioxidants, **Nutritional additives (per kg)**: Vitamin A (3a672a) 10,700iu, Vitamin D₃ (3a671) 855iu, Vitamin E 95mg, Iron (iron (II) sulphate monohydrate) 14mg, Iodine (calcium iodate, anhydrous) 0.9mg, Copper (copper (II) sulphate pentahydrate) 5mg, Manganese (manganese (II) oxide) 21mg, Zinc (zinc sulphate monohydrate) 89mg, Selenium (sodium selenite) 0.07mg

Support Supplements:

Natural antioxidants	✓
Immune system	
Mobility	
Digestion	
Coat condition	
Cognitive function	
Dental care	

Feeding Guide:

Introduce gradually over a period of 5-7 days as part of a complete diet, mixed appropriately with other meat-based complementary pet foods. Typically feed 30% fresh meat with 70% mixer (by weight). Feed as appropriate to maintain weight and condition. In order to maintain and control your dog's weight to the optimum for the breed, a regular exercise programme is recommended. Always ensure that clean, fresh drinking water is available at all times.
