Feeding Guide:

Introduce the diet gradually over a period of 5-7 days until it replaces the previous food completely. It is suggested that the total daily intake be divided into 2 meals. This product can be fed dry or moistened with water or gravy to the consistency that your dog prefers. Typically a thorough mix of 2 parts warm water with 3 parts (dry weight) of food is preferred. The amounts shown are only a guide and you should only feed sufficient amounts to maintain condition, dependent upon the level of activity enjoyed by and the conformation of your dog. Always ensure that clean, fresh drinking water is available at all times. There is no requirement to supplement this diet.
